

OfficeRight™ DF500 Folding System

Designed for: Ease of Use - Productivity - Reliability

Manually folding paper can be a tedious and time consuming process, leaving you with bottlenecks at inconvenient times. Whether you are in a rush to send out letters, invoices, statements or direct mail pieces, the need to get the job done can mean the final presentation of the material suffers. By using the OfficeRight™ DF⁵⁰⁰ Folder you will ensure your mail is folded with the minimum of effort, in a fraction of the time – leaving your staff free to concentrate on more important tasks.

The OfficeRight™ DF⁵⁰⁰ Folder is a fully automatic, standalone folder that has been developed to eliminate your manual folding difficulties. It will improve the accuracy of fold and therefore the final presentation of your mail. Sleek, modern and quiet, this machine has been designed to improve office efficiency and speed up the processing of your outgoing mail.

Easy to Use

- > LCD Control Panel provides clear text messages for easy set up and operation, and effectively monitors the job being run
- > Push-button control allows quick and easy access to all functions
- > Automatic paper size and fold selection for speedy processing

Increase Productivity

- > Variable speed control maximises the throughput of different materials processing up to 20,000 items per hour*
- > Preset up to nine jobs including paper size, type of fold, speed, batch/total count

*Dependent upon application required

Engineering the flow of communication™
